Miss Frances R. Montgomery  
Administrative Assistant  
Division of Biology and Medicine  
Atomic Energy Commission  
Washington 25, D. C.

My dear Miss Montgomery:

I am enclosing herewith a carbon copy of a letter I have written to Dr. Shields Warren including a copy of the proposal for specific tests to be carried out in the 1951 experiments at Eniwetok.

I am sending this to you in hopes that you will be able to place this copy in Dr. Warren's hands prior to his departure for Los Alamos. An additional copy is also being sent for you to give Dr. John Bowers if possible. I am also sending twenty-five copies to the Los Alamos office for Dr. Warren's use at the meeting on 10 December 1948 should he deem it advisable.

Thanking you for your kind attention to this matter, I remain,

Sincerely yours,

*Franklin C. McLean per*  
Franklin C. McLean, M.D.
